Question 2 : LDP et Python

Expliquer et commenter le code Python ci-dessous:

```
import requests
url = 'http://localhost:8080/rest/records/acv/D9999'
headers = {"Content-Type": "text/turtle"}
auth = ('fedoraAdmin', 'fedoraAdmin')
data = """ <> <rico:title>          'Ceci est le titre'.
          <> <rico:scopeAndContent> 'Voilà la description'.
          """
r = requests.put(url, auth=auth, data=data.encode('utf-8'), headers=headers)
print( 'Status:', r.status_code )
print( r.text )
```
